

Ywam.org Opportunities:

Front-End Website Developers

Our goal at ywam.org is to mobilize thousands more missionaries and to foster spiritual vitality and collaboration within our mission. To see this happen we need more front-end developers who can serve as part of our global virtual team. Would you consider joining us and helping to make a difference?

We are seeking individuals who can serve part or full-time and have the following skills:

- Can work effectively as part of a globally distributed virtual team.
- Are fluent in HTML, CSS, and Javascript
- Have an innate or learned ability to turn pixels into semantic code
- Have experience with version control and content management systems (Git, WordPress)
- Aren't afraid of the command line
- Are comfortable in an agile development environment

Additional familiarity and experience with the following would be helpful:

- PHP, ASP.NET
- WordPress API, plugin and theme development
- SASS, compass, or LESS
- Frontend development tools like Yoeman and Grunt
- MySQL or MSSQL, OOP and MVC, AJAX and JSONP
- XSS, CSRF, and other web security practices
- Scaling web applications

We are happy to consider “junior level” volunteers or interns. If you are interested in finding out more, please contact us at ywam.org@gmail.com
